

Grow Your Business with Flexible, Personalized Learning Delivery

Three channels for provisioning
content to your audiences

With more flexibility in content delivery,
you'll see increased access to new
audiences and markets. Leverage our 3
delivery strategies to:

- + Simplify content delivery
- + Manage and grow your revenue streams
- + Protect your IP

1 Modern Learning Hub: A Central, Powerful Experience

Offering a central foundation for your learning content, our platform offers admins and learners a single source of truth. Think of it as a flexible one-stop-shop: we manage the heavy lifting of maintenance and monitoring, so you can focus on building a world-class learning experience.

- Offer personalized learning journeys
- Utilize our built-in eCommerce options
- Deliver mobile-ready learning
- Manage both live events and on-demand content
- Leverage robust reporting and analytics

Benefits of a Modern Learning hub

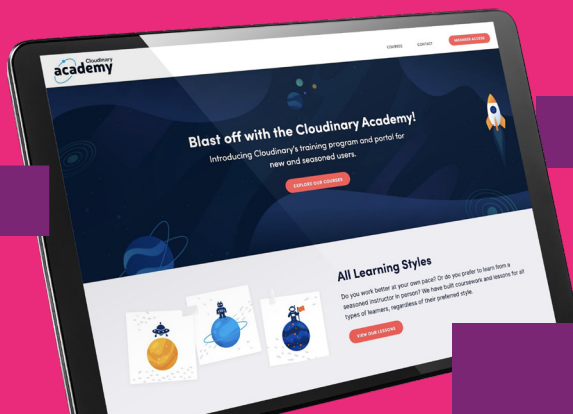

Drive learner engagement and retention with modern experiences

Add new revenue streams with subscriptions or à la carte content

Increase admin and productivity

Panorama: Scalable Custom Learning Instances

Panorama, our industry-leading multi-tenancy solution, enables you to spin up dedicated learning environments for your audiences. Imagine delivering a custom instance to every client, whether a small office or an enterprise customer.

- Take full control of branding and design
- Personalize the course catalog by audience
- Segment your data & reporting
- Centralize content delivery
- Offer freedom and control to client administrators

Benefits of Panorama

Every instance can bring a new revenue stream

Give client admins the keys to their own learning environment

SCORM Connect: Easy and Secure Content Syndication

Many organizations have clients who only want to use their own learning software. With SCORM Connect, you can extend the reach of your content by licensing it to external platforms... all the while keeping data and reporting in one central location.

- Deliver your content on their LMS
- Stay in touch with comprehensive reporting
- Make universal content updates
- Maintain control over user access & security

Benefits of Content Syndication

- + Strengthen brand presence across platforms
- + Increase market exposure through strategic partnerships
- + Diversify income streams with every export
